

# Alex Brown

## Vice President, Supply Chain Operations

Alex is a health care professional with more than 15 years of clinical supply chain and contracting operations experience. His areas of expertise include: supply chain/clinical integration, physician engagement, contract implementation, client management, and process improvement.

As Vice President of Supply Chain Operations for TPC, Alex is responsible for managing the development of TPC clinical and supply chain initiatives, including strategy development, product trials, contract negotiations, category implementation, and compliance tracking. In his role, he also facilitates the Member-led supply chain council, and oversees the team facilitating Member-led clinical value analysis teams.

Alex graduated from Georgia Tech with a bachelor of science degree in computer science. He also earned his masters of science in management and administrative sciences from the University of Texas at Dallas.
